ABSTRACT

These days there are too many online study portals are available but a lot of them are used to provide the mainly CS/IT study content but what about other engineering student like mechanical or civil or electrical or other branches.

So we started to work on the concept according which we will built an online web portal which will provide all the study materials and contents to all the different branches.

“Easy Online Study” is based on the idea which supports the concept of education for all and for every student and subjects so we built this online portal which contains not only quality contents but appropriate study materials also.

“Easy Online Study” is the implementation of the AKTU curriculum and syllabus they can get each and every thing what hey need in each and every semester and it will guid them to study for the exams as well as knowledge purpose.
